ASSIGNMENT OF PATENT RIGHTS

This ASSIGNMENT OF PATENT RIGHTS, dated June 9, 2005 (this "Agreement"), is entered into by Procom Technology, Inc., a California corporation (collectively, "Assignor"), for the benefit of Sun Microsystems, Inc., a Delaware corporation ("Purchaser") (the "Assignee").

WHEREAS, Purchaser, Sun Microsystems Technology Ltd., a company organized and existing under the laws of Bermuda and a wholly-owned subsidiary of Purchaser, the Company and U.S. Bank, National Association as escrow agent, have entered into that certain Asset Purchase Agreement dated as of May 6, 2005 (the "Purchase Agreement").

WHEREAS, Assignor has agreed to sell and assign, and the Assignee has agreed to buy and acquire all of Assignor's rights, title and interests in and to the patent applications set forth in Exhibit A attached hereto (the "Assigned Patent Applications").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby assigns and transfers to the Assignee any and all worldwide rights, title and interests Assignor holds, or may hold, in and to the Assigned Patent Applications, together with all rights derived therefrom, including but not limited to the right to sue for and collect damages for past, present and future infringement.

Assignor further agrees that, should additional or further documentation of the assignment be required for whatever reason, Assignor will, without further consideration, provide or execute such other information or documents as may be necessary upon the Assignee's reasonable request.

This Agreement shall be binding on and shall inure to the benefit of, the parties hereto and their respective successors and assigns. This Agreement will be governed by, and construed in accordance with, the internal laws of the State of California applicable to contracts executed and performed entirely therein, without regard to the principles of choice of law or conflicts or law of any jurisdiction. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any rule of law or public policy, all other conditions and provisions of this Agreement will nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner materially adverse to any party. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto will negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible. This Agreement may be executed in one or more counterparts, and by the different parties hereto in separate counterparts, each of which when executed will be deemed to be an original but all of which taken together will constitute one and the same agreement.

SF1:585874.4

IN WITNESS WHEREOF, Assignor has caused this Assignment of Patent Rights to be executed by its duly authorized representatives effective as of the date first written above.

PROCOM TECHNOLOGY, INC.
